"Imagine building the Eiffel Tower in the middle of Picadilly Circus..."

Case study: Heathrow Terminal 3 Integrated Baggage system

With air traffic figures continually growing, Heathrow needed a new, more efficient baggage-handling facility capable of handling 100 million bags a year.

In a space surrounded on all four sides by live operations, the team's only choice was to build upwards. Find out how the team overcame difficult practical implications to execute the £500m project, which won **Programme of the Year** at The APM Project Management Awards 2016.

Read more about the Heathrow T3IB system

New to programme management?

Not sure what programme management is?

Consult the relevant chapter in the ***APM Body of Knowledge 6th edition.***

Here you will find a definition and a concise explanation of the core processes involved.
