Standing out has never been more crucial when developing a successful career. Now the **Association for Project Management** has introduced a brand new route to achieving its APMP qualification specifically for current PRINCE2 Registered Practitioners. The new 2 hour exam offers you an efficient way of adding to your professional skills, setting you apart from the rest.

APMP and PRINCE2 Practitioner – add another feather to your cap

APMP is the perfect complement to the PRINCE2 method.

Delivering a project through an effective process is a proven formula for project management success. PRINCE2 offers a structured and effective methodology for successful delivery. APMP expands this knowledge and understanding to help you grow into a committed and capable project professional.

This means, APMP together with the PRINCE2 qualification will give you an understanding of the complete professional project management package. Now APM has developed a new route which recognises the prior learning gained from the PRINCE2 Practitioner Qualification offering the most effective way of enhancing your professional portfolio.

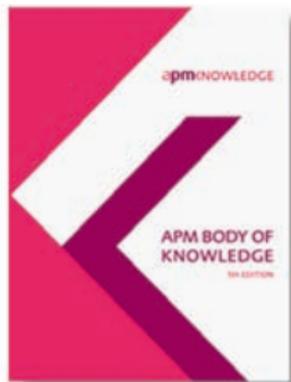

New route

– new opportunities

APMP is an internationally recognised qualification recognising both your technical project management and leadership skills. It allows you to participate in a project environment as a specialist or team member.

The APMP qualification is based on APM's *Body of Knowledge 5th edition* which defines the 52 areas of knowledge required to manage any project in any environment.

The qualification examines 37 topics from APM's *Body of Knowledge*. The new route to APMP builds on the prior learning gained in the PRINCE2 Practitioner qualification which covers 12 of these topics. Consequently, as a current PRINCE2 Registered Practitioner, you will be examined on just 25 topics of the APMP Syllabus.

What is assessed?

Complementary learning to PRINCE2

As a current registered PRINCE2 Practitioner by taking APMP, additional topics you will learn include:

- Budgeting and cost management
- Conflict management
- Communication
- Earned Value management
- Leadership
- Negotiation
- Procurement
- Sponsorship
- Teamwork

For more details and to take APMP:

There are two ways you can register to sit the APMP exam: by registering for a training course and exam with an APM Accredited Provider or by self-study and sitting the exam only on one of APM's Open events.

For further details, visit www.apm.org.uk, call Qualifications **01844 271 680** or email, qualifications@apm.org.uk

The Association for Project Management

APM has over 18,000 individual and 500 corporate members making it the largest professional body of its kind in Europe.

The APM mission is:

'To develop and promote the professional disciplines of project and programme management for the public benefit'.

Project professionals today can benefit from APM's work via membership, qualifications, events and publications built around

a framework of specific professional values (defined individually as Breadth, Depth, Achievement, Commitment and Accountability) but known in total, as the APM 5 Dimensions of Professionalism.
