

APM Project Management Awards

Each section is scored 0-10 with equal weighting

Categories:
Shell HSE Achievement of the Year

The APM judges are looking for the ways in which projects / programmes / organisations operate as HSE (Health, Safety, Security, Environmental) oriented organisations and for the projects / programmes / organisations that have delivered the greatest HSE benefit to their project teams, clients and wider stakeholders.

This award category can be applied equally to projects, programmes or organisations where a significant achievement has been made in any or all of the fields of Health, Safety, Security or Environment, including those projects or programmes that have a strong HSE achievement or culture irrespective of the organisation's wider achievements or culture.

Context and Challenges	Weighting 20%
Describe the background and the HSE requirements of the project / programme / organisation. Are HSE objectives incorporated in your project / programme / organisations' business plan? What are the HSE challenges facing your project / programme / organisation? Explain how stakeholders and partners are made aware of their HSE responsibilities.	
Mitigation Strategies	Weighting 20%
Who is accountable for HSE in your project / programme / organisation? What are the key performance indicators on HSE in your project / programme / organisation? What pro-active steps were taken to mitigate any HSE challenges? Is there a risk register that covers HSE? Are HSE risks managed to be as low as reasonably practicable? Do you have an emergency response plan - if so what scenarios have been considered?	
Culture	Weighting 20%
Does your project / programme / organisation have a HSE excellence culture? How do you demonstrate commitment to and passion for HSE excellence? Identify any HSE objectives that go beyond local / national legislative requirements. Describe actions by your leadership that demonstrate a drive for continuous improvement in HSE performance. Describe any cultural barriers to HSE excellence.	
Results and Benefits	Weighting 20%
Describe the HSE results and benefits of the project / programme / organisation. Why was the performance deemed to be a success from a HSE point of view? What will the project team(s) take away with them into the next project / programme? Describe the results and benefits for other stakeholders.	
Recognition and Lessons Learned	Weighting 20%
How is HSE excellence recognised and rewarded in your project / programme / organisation? Is there a support structure to positively encourage HSE excellence? What sanctions are there for non-compliance to HSE requirements? Have HSE lessons learnt been captured and shared within your project / programme / organisation? Is there a continuous improvement loop where lessons learnt are fed back to other project professionals in your organisation?
