

Enabling Change SIG – 2018/19 Supporting statement from the committee nominees

First name:	Surname:	What is your membership level?	Brief overview of your background and experience as a Systems professional:(maximum 150 words):	What motivated you to put yourself forward for election to the Systems Thinking SIG committee? (maximum 150 words)	What qualities, skills and experience do you think you'll bring to the Systems Thinking SIG committee? (maximum 150 words)	How much time do you anticipate being able to spend on SIG activities in an average week?
Michelle	DeBrett-Watson	Full	<p>Change professional since 1994 across industries such as banking, local and central Government, education, utilities and management consultancy, holding programme and portfolio manager roles. Have managed PMO functions for last 8 years and currently head up the central support team in Asset Investment for Northumbrian Water. Chartered Member of the CMI and member of the APM, recently taking on the role of heading up the Utilities practitioner group for the Enabling Change SIG.</p>	<p>I've only recently been involved with the SIG and would like the opportunity to continue to support and help shape the future of the group, through contributing and enabling activities</p>	<p>Experience of enabling change across a number of sectors and a variety of situations, as well as organising and directing diverse teams to recognise and achieve common goals. I'm based in the North East, so can also increase opportunities in this geographical area</p>	<p>As much as is required. NWL are supporters and corporate members and I am able, within reason, to dedicate some of my working day to APM activities</p>

Hamza	Jamil	Full	Been involved in change programmes for over 18 years.	currently a committee member - enjoy the challenge.	currently involved in enhancing our communication and events. plan to continue that.	2-4 hours/week
Donna	Unitt	Associate	I am a PM and Change Management professional. I hold a Change Management qualification and have extensive experience with over 25 years working in projects	I have been the head of the Methods & Standards Theme on the committee for the past 18 months and would like to continue	PM and Change Management expertise and experience and experience of the past 18 months on the EC SIG committee	2 hours per week
Harriet	Taylor	Associate	I have been a change professional for the past 2 years and have recently applied for the CMI change manager foundation accreditation status. I have recently worked as change management work stream lead for three internal ISO certification projects and am responsible for change activities within my unit.	I have been supporting the SIG as a volunteer to the research and methodologies work stream since January 2017. I have enjoyed supporting Donna as part of this role and would like to continue contributing my time to the SIG more formally.	I have a high attention to detail and am passionate about helping others develop. I would like to help the research methodology work stream develop it's reach and content in order to help project managers access a toolkit that they can use to address the people side of a change. I also have links with the CMI which could be used to continue building a relationship between the two organisations.	2 hours on average
Niruja	Thiyagan	Associate	although i do not have any change professional qualifications, I am passionate about change and have led on change projects within the NHS and Public Health England. This is usually been around people	Why not? I thought. I am young, motivated and driven and believe I can empower others to drive change too. As a woman too within the APM community, I would like to see more women on the committee	- healthcare public sector experience (Having worked within the NHS and now Public Health England) - quality management and having worked with the CQC regulatory bodies so have an eye for "improvements" - organisational skills - strong project management experience, especially with planning schedules.	3-4 hours

			and cultural change, whether it be technology driven or quality standards' driven.
