I want to promote closer ties between the APM and other chartered bodies, in particular the ICE and RICS which both have a strong London presence and I believe my employer's relationships with these bodies could benefit the London committee in achieving this. I am keen to understand the role of APM and champion this across the health and government sectors. It is often challenging to understand the varying degrees of project management across APM so I hope to use my role within the London Branch committee to learn and develop my own knowledge and take this back to my day-to-day role.	Project management in the NHS and health/government sectors - organisational skills - being able to manage time yet contribute to the committee in a positive manner - advocate to the younger generation and encourage others to follow APM - proactive attitude - a "can do" attitude will ensure APM's agenda is progressed and being situated in London ensures I can utilise my network to encourage individuals to attend London APM events.	3 hours
