<b>Andrew Critchley</b>	Full	Each year I try to broaden my experience and take on additional activities outside my normal 9-5. Over the last few years I have become more involved with various qualifications and last year started to get involved with PM apprenticeships, providing ongoing mentoring and support. I believe being on the committee would allow me to be involved with another facet of the APM and provide the opportunity to become part of my local project management community.	I have been a PM trainer and consultant for nearly 20 years and regularly work in organisations on contracts primarily delivering the APM suite of courses and have recently been appointed a Quality Reviewer for the new IPMA qualifications. Prior to my current role I have worked as a project and programme manager for a number of organisations which enables me to bring a practical element to the contacts I currently work on. What I believe I can bring to the North West Branch is a broad insight project management in a variety of organisations in addition to my own project management experience.	Because of work commitments I am unable to commit to regular hours each week but could commit to a day or two a month (diary dependant).

Until recently, most of my work has been elsewhere in the UK/World which has meant I've been unable to get more involved in the NW branch. I now spend a lot more of my time in the NW (based in Liverpool) so I'd like to step up and get more involved in the region. <b>Graham Hackett</b>	Full	I want to contribute to the continued development of the APM and the NW Branch in particular. I believe that the APM membership will grow and we should have a responsive NW Branch to support the local membership.	I have been instrumental in setting up the Furness Group and I am currently Deputy Chair of the Furness Group of the NW Branch. Over the years I have previously been involved with various APM working groups and I am now in a position where I am able and prepared to become more active with Branch activities.
