

Name	Membership	What motivated you to put yourself forward for election to the APM Yorkshire and North Lincolnshire branch committee?	What qualities, skills and experience do you think you'll bring to the APM Yorkshire and North Lincolnshire branch committee?	How much time do you anticipate being able to spend on branch activities in an average week?
Alan Apps	Full	Having recently achieved ChPP and attended a number of branch events and committees I am keen to provide my input to assist both the branch and wider APM.	I have been involved in various charities as treasurer, chair and founder and have been a school governor. As my children have moved schools I have become less involved in these activities so I am looking to fulfil my social responsibility via other means. I can bring the skills involved in the above to the branch. I can also use my connections into construction, design and infrastructure client organisations to promote the profession and ideally bring their corporate social responsibility programmes to benefit APM. As an aspiring APM Fellow I am keen to demonstrate my commitment.	2-3 hours - potentially more as my employer (WSP) are keen to work closely with APM
Andrew Fotherby	Full	I am a serving committee member, and wish to continue	I have +20 years experience in programme and project management in various sectors, in the UK and overseas. I am the WYG lead for Major Programmes and lead the Security, Justice and Defence sector work. I am an active member of the Y&NL committee, and want to continue to expand membership engagement in the region	2-3 hours per week, or 1-2 days per month
David Burton	Full	I have chaired the branch for the 2nd time since 2016 and would like to think that my input has brought forward worthwhile events and initiatives that have enhanced the value to our membership.	I have good organisational, communication and people skills. These have enabled me to ensure that the branch committee business is carried out effectively and that events are organised on a regular basis in venues that suit the branches widely dispersed demographic.	Probably 2 hours per week.
David Pearce	Full	Wanting to contribute to the important work of our professional body. Further, as an existing member of the Branch Committee I play an active role as Secretary and would be happy to continue as same should this be required.	Long term membership and involvement of both APM and the Chartered Institute of Building. Ditto Higher Education Academy. Also active with several other charitable foundations. Good links with industry.	3-5 hrs per week.
David Worsley	Full	I was invited to observe the regional committee meeting in Leeds on Monday 13th May, and I noticed that many of the activities that the committee were undertaking required contacts with a diverse range of people in project-related industries and professions. In my 17 years working in this field I performed project-related roles at Network Rail for 14 years, in fields such as risk management, value management, project appraisal and strategic planning, and since moving to WSP 3 years ago I have continued to work in all these areas. I have also been a Visiting Lecturer on these subjects at Newcastle University since 2013. I have thus built up a large network of people in client, consultancy and academic roles, and I think that I could use this for the benefit of the APM.	My experience and interests would particularly suit a role helping to organize professional and educational events. I regularly attend events run by the Association for Project Management, the Institute of Risk Management, the Institute of Mathematics and Its Applications, the Transport Planning Society, the Permanent Way Institution, the Institution of Railway Operators and the Institute of Value Management, and I have spoken myself at events organized by the first five of these bodies. I could thus assist in sourcing speakers and topics for events. I have been a full MAPM for 4 years and was an Associate for approximately 10 years previously, so I have attended a large and varied range of events in this time. Additionally, I have taught on 5 different courses at Newcastle University and supervised 3 students' dissertations, so I have experience on educational aspects of project management.	2 to 3 hours
Hilary Pattison	Fellow	I have been a committee member for a number of years and I am currently the Corporate Liaison Representative. I am therefore applying for re-election.	As an active project manager working as a consultant and a fellow of the APM I am well placed to be close to current practice and understanding future priorities for the profession.	2 hours, but that is an average. Close to events it will be much higher.
James Marr	Associate	The opportunity to be part of the team that will continue to develop and grow this branch of the APM ensuring it becomes a true value add to its membership and the region. I like to get involved with organisations that I am a member of and the	Key qualities that I will bring to the organisation include: a questioning approach – I'm always keen to find new and better ways of doing things without ever accepting the answer "but that's how its always been done"; a highly professional approach to everything I do along with an energy that gets results; and, a high degree of	Between 3-5 per week.

		best way if doing this is to get to the very heart of an organisation. Finally, I see the opportunity as an excellent mechanism for developing a wider network of like-minded individuals whom collectively can work to further enhance the standards fo the profession as well their own skills and experience.	adaptability and flexibility that will allow me to react to changing organisational requirements in a quick, efficient and effective manner. Key skills that I will bring include: transformational leadership, emotional intelligence, a collaborative approach to problem solving, stakeholder engagement and management, exceptional communication skills, as well as a strong business acumen. I have over 25 years experience of managing programmes, and leading transformation. I am currently Secretary for Wetherby RUFC and, as a result, have a good understanding of the requirements of the Secretary role for which I would like to be considered.	
Ken Platts	Full	Current treasurer of the branch, familiar with APM processes and people, desire to ensure continuity of role	Past experience of treasurer role and branch committee activities. Significant attendance record at meetings and events	3-4 hours
Kimberley Ward	Student	I recently started the associate project manager apprenticeship, as part of my learning I attended my first membership event on project assurance. I learnt an incredible amount from those leading the event to networking with professionals alike. I am passionate about continuous learning and I have been working to become a project manager in various change roles. I think it's important to have a diverse range of representation and as a young(ish!) deaf APM student, working full time and being a single mum; I'd like to show others that nothing can stop you from being involved or achieving your dreams when you work hard. I'd love to understand and help shape the future of the committee as the world continues to adapt, it's important we do to – nothing in life is certain except change.	I've worked in the financial industry for 12 years from being a frontline operational rep, to a Process Improvement Analyst and now an Agile Scrum Master. This has all been achieved through personal development and taking opportunities when they are presented to me – sometimes they have been really tough experiences but its defined who I am today - hardworking and passionate about change. It's boosted my confidence to speak up, if something isn't right I discuss in an open, honest and constructive way. Despite being deaf, I have great listening skills. Being young, passionate, organised and committed I strongly believe I have the right qualities and experiences to discuss, debate and deliberate. I regularly present to our CEO and senior leadership and I work with all levels of stakeholders (internal and external) – my networking skills are second to none and I love sharing best practice, coaching and having a voice.	2-3 Hours twice a week
Mark Laurillard	Full	I am keen to promote the profession of project management and develop the profile of the profession in the region	I was a project practitioner for most of my professional career. I have been a full time university lecturer in project management for the last 10+ years, both as course leader for undergraduate and postgraduate provision. I am now Course Director for all Project Management courses, including the delivery of APM professional courses. I have extensive practical experience and a passion for education in project management. I have served on the regional committee for the last 2-3 years	half a day p/w
Michael Diskin	Full	I am committed to the continuing development of the profession and would like to contribute at a local / regional level.	I am an experienced project professional and have successfully delivered capital schemes in a local government environment. I am a registered training with the APM and have experience delivering the PMQ and PM modules in higher education. I am PRINCE2 / PMQ / MSP qualified. I am a full member of the APM.	2-3 hrs per week
Muhammad Naeem	Fellow	I have 22 years of PM experience. I think there is a need to make my local apm more active and lead with example to other regional networks. I am with committee for last 2 years. I am confident that I will use my strong networking with academics (UoB,UoL,UoS,York Uni etc) and regional organisations to increase the awareness of PM, thus increasing membership at various grades. I spend 5-8 hours on weekly basis in volunteering for many	Muhammad is a PM and chartered engineer, contributing towards PM profession with over 22 years globally in private and public-sector organisations, sharing deep PM experience with colleagues, teams and organisations. Muhammad has been a Chairman for Joint Institution Group, NW:leading ICE, IMechE, IET etc. He contributed the profession through organising Engineering your Future events for raising the awareness and promoting STEM initiative in college /Uni students. I have worked in many organisations in Y&NL region. He has organised events with industries and academics. Currently, he is	3-4 HRS/ WEEK

		<p>causes. I understand local issues and feel that through leading APM, I can help community and businesses to resolve the issues by using PM community. Especially, as a FAPM, I feel this my responsibility to more actively promote and contribute with APM. I have organised a no. of workshops, where I invited various stakeholders, including key organisations and academics e.g; Sustainability in SCM, Circular economy. I have contributed for FoPM lecture at UoB.</p>	<p>leading b/w Arup and UoB Collaboration. He has served as Judge in the IET Young Awards. He has a strong networking with local universities, organisations and APM local members. I look forward to support and contribute Committee through initiating knowledge sharing events, engaging & developing young APM's. I'll raise the image of APM and will achieve 40% more APM members in various grades.</p>
