

Name:	What is your membership level?(Please note that only APM individual members are eligible)	What motivated you to put yourself forward for election to the Midlands branch committee? (maximum 150 words)	What qualities, skills and experience do you think you'll bring to the Midlands branch committee? (maximum 150 words)	How much time do you anticipate being able to spend on branch activities in an average week?	If you have any items for the AOB section of the Annual General Meeting please list them here:
Halina Biernacka	Student	I would like to get involved more in activities related to project management and to find out if this would be something where I could utilise my skills and maybe consider my future professional life in this area. I understand that the committee is mainly concentrating on the development and promotion of the APM business. I also hope to get generally more experience and I look forward to meet all the interesting people involved in this venture.	Currently I am a student (MBA) and self employed. I hope to bring a fresh view of an outsider which could trigger some innovations, although things like that could never be promised. I used to be a Health and Safety Manager and a Logistic Manager for distribution companies. I was also a primary school committee member for about half a year.	I admit I am not sure what will be required but I understand the meetings (or calls) are scheduled monthly and normally there is some paperwork to read/prepare before them. Some people take on some additional tasks as required. I would also be interested in getting involved with the presentations and other events.	Maybe next time.

Adrian Turner	Full	Having been part of the branch events sub-committee for some time, serving as a full committee member seems like the natural progression and will allow me to continue to broaden my volunteering experience with the APM. I see this as an important opportunity to further raise the profile of project management, help develop others and support members across the region.	As an experienced Project Manager, I've been on the events sub-committee for the last 6 years assisting with sourcing speakers, organising and hosting events for the branch. I also frequently attend CPD events organised by other professional associations (e.g. BCS, IET, CQI) which provides opportunities for new topics of discussion and results in a wider and more varied network of connections and allows me to benchmark against APM events, ultimately improving the experience for attendees.	2-8 hours including CPD events, meetings, etc.	
Veleta Brown	Full	I have been working in Project Management for 10 years and would like to give back to the profession by being a committee member.	I have 2 MSc's (Technology Project Management and Construction Project Management) so I have experience in both the IT and construction industries which has given me different perspectives of what a Project Manager does. Along my journey I have gained a lot of skills and lessons learnt that could help others and improve the profession as a whole.	10 - 20	
Robert Heaton	Associate	It makes me feel good to contribute, be involved with running the branch and promote the profession. I like to engage and network with fellow Project Management professionals.	I am friendly and sociable. I have volunteered since 2015 and been a committee member since 2017. I have developed secretarial skills including producing meeting minutes. I have hosted 5 branch CPD events in the past year for the events team. I am good at planning, organising, communicating and working in a team.	Over the past year, I have spent 3-4 hours per week, which covers 2 roles. I am able to make a similar commitment of time.	

Hannah Millichamp	Student	Being new in to Project management and a student, I felt the exposure and opportunity would be one id be daft to miss out on, seeing what goes on, providing me with an understanding and experience I wouldn't otherwise get.	Being 19, I feel I can bring fresh eyes and a vulnerability whereby I may not know everything, and I often find when questions are asked it can identify issues that would have been brushed over without route questions being asked and I think being new into the profession I will be able to ask such questions.	Around 10 hours per week, more when on holiday from university.	
John Williams	Full	I have benefited over the majority of my career from the project profession, professional colleagues and specifically from APM. As such it is only fitting that I should give a little back.	I have over 25 years of broad experience of project, program and portfolio management at pretty much every level and across most industry sectors. For over 15 years I have been guiding and advising organisations and individuals on how to make their projects and project management careers more successful. As well as supporting the Midlands committee over the last 5 years, I have actively contributed to the work, serving as chair and deputy chair, of the Corporates sub-committee and overseeing the BCAG program of events. I would very much like to see this continue & flourish as a recognised Midlands success story.	4 hours	
Roger A Garrini	Fellow	I have served on the committee for some years, in the last two years as Chairman, and wish t to continue to promote APM around the Midlands.	I have built up many contacts with SIGs and other branches which allow us to further our aims and we have established a strong committee	3-4 hours	None apart from a plea for more volunteers to help us formulate our plans and deliver them to the members

Matthew Game	Full	I have been an active member of the Midlands branch for almost 10 years, having hosted events, been an active member of the Events Committee SIG and promoted the good work we as the APM do to enhance the profession. As a Chartered PP I am doing everything I can to support our growth as the APM in these exciting times!	I am Director of UK Project Services Ltd, and have responsibility for the delivery of over £900m of projects within the Birmingham International Station/Airport/NEC area. I have 20 years of project delivery experience in various roles and I am an enthusiastic supporter of developing individuals and new growth within the project environment.	2 hours	Having personal values which I live by has significantly helped my own development over the last couple of years. I personally live by the values of Grow, Appreciate, Connect and Contribute. It would be fabulous for the Midlands Branch Committee to have a common set of goals/values which we can all use and promote both internally and externally, to support alignment and action towards what we aim to achieve.
Menna Pitts	Full	I am the current Events coordinator and have delivered 14 events in the last 9 months all of which has been well attended and recieved. I am keen to continue to deliver more events that meet the needs of the Midlands region	Organisation. Network. Insight	1 hour per week	
Alireza Rezaei	Student	Having one year experience of being HEI committee in Midlands branch	My background in construction management and teaching management realted modules at university. Having links with some higher education institutes.	2-4 hours	NA

David Munslow	Fellow	I am an existing committee member, having been so since 2016, including having been Secretary of the branch in 2017 and currently being Chair of the Corporate Engagement Sub-Committee. I therefore have experience of how to function effectively as an officer and active committee member, in addition to understanding the level of effort required within the sub-committees.	I would like to utilise the experience and I have gained over the last few years on the committee to really drive a focus upon delivery. I am keen to use my leadership skills to ensure the branch has three active sub-committees and delivers a full schedule of events for the benefit of the membership. Recognising that being a good PM in the day job does not necessarily translate to a management committee context, As when previously Secretary, I would draw upon military command experience and management experience.	Based upon previous years I would anticipate a level of approximately 180-230 hours over the year.	
Parastou Shahid Zadeh	Student	I have passed my APMP exam around 5 years ago, and learned a lot from the process. Now I am a researcher in the field of BIM and Lean construction, an opportunity to be involved in the midlands with APM and its member is very useful and beneficial for me	I have previously set up PhD workshop on LCI summit 2018 and managed and planned the entire day for the presenters and the panel. My skills are: great communicator, very organized and forward thinking.	maximum 20 hour a week	
Angela Noble	Full	I have been Treasurer of the Midlands Branch for the last five years. I am prepared to continue this post.	Enthusiasm, organisation and experience	1-2 hours	

<p>Saleem Akram</p>	<p>Fellow</p>	<p>I have been committee member for a few years and I am seeking election to the APM Midlands branch committee to enable me to contribute more actively and positively towards enhancing the influence of the APM.</p>	<p>I am a project management professional having more than 38 years' experience mostly in the built environment. I have board level experience and have delivered successful outcomes across a wide range of areas including revenue generation, stakeholder engagement, events and awards. I would like to continue to contribute as a volunteer for the membership of the APM Midlands Branch.</p>	<p>I am happy to contribute around 2 hours per week.</p>
