

First name:	Surname:	What is your membership level?	Brief overview of your background and experience as a Risk professional: (maximum 150 words)	What motivated you to put yourself forward for election to the APM Risk SIG committee? (maximum 150 words)	What qualities, skills and experience do you think you'll bring to the APM Risk SIG committee? (maximum 150 words)	How much time do you anticipate being able to spend on SIG activities in an average week?
Richard	Bendall-Jones	Full	Risk & Value manager for 4 years in UK infrastructure	I am a current co-opted member and want to continue to get involved.	Experience, presentation skills, willingness to get involved.	2-4 hours a week.
Estelle	Detremblé	Full	For the last 10 years, I have been focusing my development on Multi-Billion pound Major Infrastructure Project such as Crossrail, Tideway, HS2, BP Tortue. As a subject matter expert consultant where I particularly developed skills in planning, risk management, reporting, change management, commercial aspects and contract management (NEC3 Suite). I promote Risk culture, increase the interface between departments to ensure an	APM creates a positive and supportive work environment where I feel respected and valued. For those reasons, a role in the Risk Management SiG is extremely attractive. Through this statement I wish to express my keen interest in keeping an active role as a member of the APM Risk Management SiG. I am very much aligned with the goals and focus of the APM. Through this term I am willing to support with projects or tasks meaningful to the APM strategy for growth. I would like to use the skills gained throughout my career to assist the Risk Management SiG to reach new communities, develop innovative	For the past 18 years, I have been a Committee Member for various organisations. I have experience in chairing meetings and providing strategic solutions and my proven leadership skills, plus enhancing staff performance and resourcefulness are some of my key strengths that will prove useful to the APM Risk Management SiG. My technical, writing, event planning, and public relations expertise are all transferrable. I am fascinated by the trends in Major Infrastructure projects and how the new Technologies influence the development of Risk Management as a profession and how this integrates in the Project life cycle.	For the last 4 years on the RISK SIG Committee, I have contributed to webinars, conferences, papers and have judged project management challenges. Fundamentally, I have an interest in promoting the benefits of

			integrated view on project risks and developed a risk visualisation tool.	projects and reach the APM objectives.		APM as an organisation as well as its members. I am flexible, in the past as there have been period with high and low level of activity.
Ben	Fry	Full	I have over 15 years' experience in Risk Management, having worked in major Programmes and Projects in both the Defence and Infrastructure domains. During this time, I have undertaken a diverse range of risk management activities including Project & Programme delivery, training provision, assurance, quantitative analysis and leading large scale risk improvement programmes. My current role is as the Group Project & Programme Risk Manager, where I am	I am an advocate of continuing to progress the risk management field, having done presentations to various conferences and events. I believe that as a profession we need to continue to focus our attention on how we continue to grow the value that we offer our businesses and their decision makers. The PRAM guide was a key document for me personally when I started my career as a Risk professional and remains a regular go-to document. As work is ramping up to update this document, it feels like the right time for me to volunteer for a role on the Risk SIG. This will allow me to give something back to the profession	I have a diverse breadth of experience having done risk management activities in a range of different organisations and sectors. In addition to risk management (which is my primary focus), I also have experience in other Project Controls disciplines such as scheduling, I believe this diversity gives me a well-rounded view to help support the development of Risk Management in a cohesive manner and bringing a diverse range of ideas to the table. I believe in keeping things simple (where possible) and focusing on the value that risk management activities can add. I feel this makes my input both pragmatic and practical which I believe will help support development of future SIG outputs.	4-5 hours

			responsible for all aspects of Project & Programme Risk Management and ensuring that it dovetails into the wider Enterprise risk picture.	and help use my knowledge and experience to support its development.		
Keith	Gray	Full	Risk management consultant covering risk process development and training, application and training on quantitative and qualitative risk tools. Risk management consultancy in many sectors and in many countries. Supporting APM Risk SIG and Branch events and document reviews and development with due reference to the APM BoK and other mainstream risk documents such as ISO 31000.	To improve the recognition of risk practitioners through qualification development, supporting learning events and document reviews and development, bringing in practical experience and knowledge of the PRAM Guide and other risk management standards.	Working with others whether face to face or remotely. Practical experience in using risk documentation and risk tools and using such experience to shape future developments of Risk SIG products such as PRAM and webinars.	One hour per week. Experience shows that at times this may be much more but I am committed to spend time to ensure results.
Keith	Harrison	Full	I have been a Risk Manager for over 15 years and am presently Risk Subject Matter expert for a Division of a UK Defence company, responsible for the providing advice to project and maintaining Risk Governance.	I have been actively involved with the Risk SIG for over 10 years and Secretary for the last 3 years	I have over 15 years experience undertaking project risk management on a wide variety of projects. I have been an active member of the Risk Committee for over 10 years.	4 hrs

Sara	Hasani	Full	Lecturer in risk for the past 5 years, PhD in disaster risk	I think a link between academia and practice is required.	Updated knowledge of academic progress in risk. Problem solving skills.	2 hours.
Kevin	Kane	Full	I have taught risk management in higher education for nearly 30 years.	I would very much like to contribute to the development of the project management profession.	I could help contribute to the development of the educational side of risk management	5 to 10 hours.
Tony	McDonald	Full	In 20 years as a risk professional, I have lead numerous risk management teams in a wide range of industries from nuclear to defence to infrastructure. The programmes/projects have ranged from complex £30bn megaprojects to short term, time constrained engagements. During this time I have developed a deep knowledge and practical application of both quantitative schedule and cost risk analysis, undertaking such analysis on complex, complicated programmes with multiple schedules/cost models.	I have been a Full APM Member for nearly 20 years and have served on the Risk SIG Committee on several occasions, most recently for the last 3-4 years. I am passionate about spreading the benefits of risk management across all areas of project/programme management and try to use my work with the Committee to 'evangelise' this.	I am someone who likes to get things done and to challenge the norms to ensure that APM members can get as much as possible from their membership. I have been involved with the Risk SIG for many years and have worked with many committee members to ensure Risk Management is always at the heart of the APM's thinking, forward plans etc. In the past months I have lead a joint team from the Risk and PMC SIGs delivering a programme of webinars on QSRA, QCRA and Integrated QS/CRA to a wide audience across the project profession.	2-4

Peter	Simon	Fellow	I have worked in risk management for over 30 years.	I want the SIG to continue to continue to be recognised as APM's voice for project risk management.	Willing to contribute in any way I can to make the SIS successful.	2 hours.
Robert	Webb	Full	I have been a practising risk professional for over 15 years and have experience at the project, programme, and enterprise levels.	Wanting to give back to the risk community and be involved in the latest trends, developments, and thoughts.	I work well with groups and on individual projects, I am active in discussions I participate in, and am keenly interested in developing and furthering risk management practices.	Unfortunately, my time is limited but I will provide the time I can.
Derek	Wright	Full	Senior Project Manager practicing Risk Management on a daily basis. Company Risk Expert and author of Risk Management Guide and policy.	Current Member (6 years) and Chair	Providing the link between the Risk Management and Project Management communities.	2-3hours
