| Aaron Douglas | Full | I have a desire to connect to the project profession and to strengthen links between project professionals and the communities they work in. I also believe being a committee member will help me keep up to date with the profession and be able to pass learnings on within the organisation I work for. | I have a willingness to help out and to lead initiatives. I have cross sector project experience in both public and private sector on projects spread throughout the East of England. | Up to 2hrs per week |
| Brent Crossman | Full | As an advocate of CPD, I am drawn to the mutual benefits of an organisation that helps facilitate networking opportunities that sponsor and supports Professional learning with likeminded individuals. Project professionals undoubtedly benefit from experiential learning delivered within professionally neutral environments, that enable and encourage critical questioning without career limiting judgement. I believe that I have the passion and drive to share this belief and vision with others. | I would like to continue to serve the APM East of England membership within the role of Treasurer and Event organiser. I have been a member of this regional branch committee since September 2016, which has enabled me to gain a broad understanding of our local membership and the process of planning, booking and facilitating our meetings with guest speakers. I consciously plan the location of events based around the geographical dispersion of the membership within our region to enable wider access. | Between 5-10 |
