## **Association for Project Management (APM)**

We're Association for Project Management (APM). We're a professional membership organisation that sets the standards for the project profession. As a registered charity, we reinvest our surplus for the benefit of our members and the profession. We deliver education and develop qualifications. We conduct research and provide knowledge and resources. We run events and share best practice. We give people the opportunity to connect and provide community for our individual members and corporate partners, wherever they are. Above all, when doing so makes a difference, we challenge the status quo.

We are currently redeveloping our Chartered Project Professional Standard with a vision to redefine the methods of assessing Chartership competence, allowing for global scale and accessibility. The project is tasked with seeking the most appropriate assessment methods which will support operational efficiency and scalability, without compromising rigour, reliability, accessibility and inclusivity. With this, the opportunity has arisen for current practising project professionals to join us in conducting the pilot for our new proposed assessment model. One of the roles required for the project pilot is as a 'marker'. The purpose of this role is for the marking of the advanced technical knowledge exam question responses, and for assessing the professional practice presentation recordings submitted by applicants within the pilot assessment. Markers are required to use professional judgement to interpret applicants' responses through applying the prescribed mark scheme and competence criteria accurately and consistently.

We'd like to hear from suitably qualified and experienced project professionals who are interested in getting involved in this area of work.

- The ability to work to tight deadlines.
- Are not affiliated with any APM Accredited Training Providers or with any coaching/ training programmes for ChPP.
- Are not currently involved in the development or delivery of project management qualifications for another awarding organisation.
