APM SIGs – Get Involved!

The APM SIGs have an important role to play within APM in creating and disseminating new knowledge.

- Input to creating and disseminating new knowledge
- Create knowledge sharing opportunities on current interests of the profession – CPD!
- Further the understanding and practice of tools and techniques
- Inspire future Project Managers
- Give back to the Project Management profession
- Learn new skills
- Many more reasons!

APM Planning, Monitoring and Control SIG – Chair statement

The Planning, Monitoring, and Control (PMC) SIG is a disciplined and passionate motley crew whose focus is on furthering the knowledge and understanding of control methods for projects, programmes, and portfolios. We are fortunate to be supported by many volunteers from a variety of organisations.

We are now starting a call for nominations for volunteers who wish to take on more formal committee responsibilities, so please read the guidelines provided by the APM to find out more about the requirements to join a committee. If you are keen and able to attend committee meetings, support events, contribute to SIG initiatives, we would be happy to welcome you. If you want to join us as a more flexible volunteer without the demands of a formal committee role, please feel free to [get in touch with us](#) and tell us a little about yourself including your areas of interest and experience in the discipline.
