

First name:	Surname:	Brief overview of your background and experience in this SIG subject matter: (maximum 150 words)	What motivated you to put yourself forward for election to the APM Risk SIG committee? (maximum 150 words)	What qualities, skills and experience do you think you'll bring to the APM Risk SIG committee? (maximum 150 words)
Richard	Bendall-Jones	Active Risk & Value management practitioner in construction.	I am an existing member of the SIG Committee.	Knowledge, experience and 'expertise' of working in Risk management in the UK construction/infrastructure sphere and previous experience working with the SIG.
Estelle	Detrembleur	For the last 10 years, I have been focusing my development on Multi-Billion-pounds Major Infrastructure Projects such as Crossrail, Tideway, HS2, BP Tortue. As a subject matter expert consultant, I particularly focussed on planning, risk management and contract management (NEC3 Suite). Having just served 4 years on the committee I feel I have much more to give! I'm passionate about supporting the development of professionals and the project management profession.	APM creates a positive and supportive work environment where I feel respected and valued. Through this term I am willing to support with projects or tasks promoting the benefits of project management. I am passionate about spreading the benefits of risk management as an integrated function on Programme and portfolios and be part of an a group that Influence national and international standard-making authorities. I believe I have been an asset to all committee I sat on, I am an honest, confident and articulate individual and I have written technical papers I am fascinated by technologies and digitalisation and how this will influence the profession in the future.	I'm an optimist who loves to take on challenges and deliver them through a cooperative approach. I'm quick to take the initiative and lead teams but I've enough self-confidence to allows others to take the lead and provide them with the support they need when appropriate.
Ben	Fry	I have over 15 years' experience in Risk Management, having worked in major	I am an advocate of continuing to progress the risk management field,	I have a diverse breadth of experience having done risk

		<p>Programmes and Projects in both the Defence and Infrastructure domains. During this time, I have undertaken a diverse range of risk management activities including Project &amp; Programme delivery, training provision, assurance, quantitative analysis and leading large scale risk improvement programmes. My current role is as the QinetiQ Group Project &amp; Programme Risk Manager, where I am responsible for all aspects of Project &amp; Programme Risk Management and ensuring that it dovetails into the wider Enterprise risk picture.</p>	<p>having done presentations to various conferences and events. I believe that as a profession we need to continue to focus our attention on how we continue to grow the value that we offer our businesses and their decision makers. A role on the SIG will allow me to give something back to the profession and help use my knowledge and experience to support its on-going development.</p>	<p>management activities in a range of different organisations and sectors. In addition to risk management (which is my primary focus), I also have experience in other Project Controls disciplines such as scheduling, I believe this diversity gives me a well-rounded view to help support the development of Risk Management in a cohesive manner and bring a diverse range of ideas to the table. I believe in keeping things simple (where possible) and focusing on the value that risk management activities can add. I feel this makes my input both pragmatic and practical which I believe will help support development of future SIG outputs.</p>
Keith	Gray	<p>Risk management consultant, trainer, policy, process and procedure developer and hands-on experience using various risk tools.</p>	<p>To advance the cause of risk management as a profession and to help develop those with aspirations to join in and improve their personal capability and provide valuable insights and advice to decision-makers.</p>	<p>Over 20 years' experience providing risk management services across many sectors and in many countries. I have helped to organise Risk SIG events and have authored and reviewed APM risk publications.</p>
Sara	Hasani	<p>I have a PhD in risk management, has been a project manager for over 10 years and been teaching project risk management in university since 2011.</p>	<p>I have been a member for the past few years and there has been few initiative and process we have launched and would be nice to continue that. In addition bridging between academia and practice is beneficial for both fields and I can contribute to that.</p>	<p>I have a PhD in risk, has been a project manager for over 10 years and been teaching project risk management in university since 2011.</p>

Kevin	Kane	I have taught Risk management for many years	I would like to contribute to the profession	An educational angle.
Tony	McDonald	I have been a risk management professional for over 20 years working across a variety of industries and sectors. During this time I delivered enterprise, portfolio, programme and project risk management across numerous organisations and mega projects.	I have served on the committee for many years and want to take the opportunity to be part of a reset of its activities now that there will be a new Chair and Secretary following the incumbents standing down. I wish to raise the profile of the SIG across the risk management and wider project management communities, especially when the management of risk is at the centre of the response to COVID-19.	I have broad experience of working as part of, not just the SIG committee, but others across local sporting and charitable organisations. Key to the effectiveness of such work, is teamwork where all opinions are respected and every member is valued and supported. I have assisted in arranging SIG Events and Conferences as well as co-ordinating and delivering webinars on its behalf.
Peter	Simon	I have worked in project management for over 40 years and in risk for over 30. I have co-authored a book on Risk Management (ATOM), which won the PMI Project Management Book of the Year award in 2013. I developed the risk qualifications for APM.	I have been a member of the SIG for over 30 years and a former Chair. Likewise I have been a member and supporter of APM for over 30 years. I will continue to support APM.	Current Risk SIG committee member and former Chair. I have also helped to organise the last three SIG conferences.
Robert	Webb	I have been involved in risk management, from enterprise, programme, and project perspectives for over 20 years.	I have been a member of this SIG for a number of years and wish to continue my association.	I have been a member of this SIG for a number of years and wish to continue my association.
Derek	Wright	Current Sig Chair and been involved in the Sig for ~10 years. Senior Project Manager and Risk process owner in Previous company. Currently Operations Director.	To support the Sig Committe and incoming Chair.	Communicating Risk to project managers and teams
