# APM SIGs – Get involved!

The APM SIGs have an important role to play within APM in creating and disseminating new knowledge.

- Input to creating and disseminating new knowledge
- Create knowledge sharing opportunities on current interests of the profession – CPD!
- Further the understanding and practice of tools and techniques
- Inspire future project managers
- Give back to the project management profession
- Learn new skills
- Many more reasons!

# APM Knowledge SIG 2020/21 chair report

Our mission is to inspire project professionals to deliver meaningful change for societal benefit by providing support on the art, science, theory and practice of knowledge management in project environments.

Our main planned activities are blogging about current KM thinking, hosting webinars, organising the annual SIG conference, and speaking at events. We welcome new members who can help us with any of these. We're not just looking for KM specialists – if you have experience in facilitation of online discussion, using social media, organising events or keeping notes of meetings, we want to hear from you.
