

THE CHARTERED BODY FOR THE
PROJECT PROFESSION

APM Planning, Monitoring and Control Specific Interest Group (SIG)

SIG report 2020/21

APM SIGs – Get involved!

The APM SIGs have an important role to play within APM in creating and disseminating new knowledge.

- Input to creating and disseminating new knowledge
- Create knowledge sharing opportunities on current interests of the profession – CPD!
- Further the understanding and practice of tools and techniques
- Inspire future project managers
- Give back to the project management profession
- Learn new skills
- Many more reasons!

Visit the SIG website pages to find out more - www.apm.org.uk/community/

APM Planning, Monitoring and Control SIG

2020/21 chair report

The Planning, Monitoring, and Control (PMC) SIG is a disciplined and passionate group whose focus is on furthering the knowledge and understanding of control methods for projects, programmes, and portfolios.

Over the past year we have continued to meet monthly, with virtual meetings in Teams. Although we miss the face-to-face meetings, it has enabled others to join us who would not normally be able to attend.

We continue to develop relevant tools, publications and presentations. In the last 12 months we have completed a Project Control Maturity Assessment Framework, as well as three [earned value management system \(EVMS\)](#) webinars. We also have a working group looking into Project Data Analytics (PDA).

We are currently working on a Project Controls guide for senior managers and a new edition of the Planning, Scheduling, Monitoring and Control guide.

We are always looking for interested parties to join us from whatever industry, with little or a lot of experience!

Finally, we are calling for nominations for volunteers to take on more formal committee responsibilities. If you are keen and able to join our meetings, support events, contribute to SIG initiatives, we would be happy to welcome you.

Keith Haward and Edi Hayward - APM Planning, Monitoring and Control SIG co chairs
