

**APM North East branch committee nominations
2017/18**

Name	Membership	Reasons for wanting to join the branch committee	What qualities, skills and experience do you think you'll bring to the North East branch committee?
Vasile Gadinceanu	Associate	My previous experience with the branch has been very positive and I would like to continue being part of the long term development of the branch.	I believe I can bring my academic and practical knowledge of Project Management in order to help with the growth of the branch.
Sian Church	Full	Existing committee member	Existing committee member
Oliver Randall	Associate	I have been a member on the committee for the last year and I wish to continue. I originally got involved as I believe project management is a huge part of introducing change. Change is a very important part of the future for all of us and seeing that done in the most efficient and cost effective manner is a primary motivator. I also got involved to be as involved as possible in the project management community.	I have set up three of my own companies in the last two years and this requires a lot of different skills which will benefit the committee. I am an experienced project manager who has practiced in many different sizes and types of organisations, I understand how to make project management relevant and effective on many different levels.
Natacha Redon	Associate	Commitment to APM since 2009.	APM knowledge through different roles, strong network and dedication.
Clare Wappat	Student	I have been volunteering on the committee for the last 10 months and I would like to put myself forward again. Giving an insight for new people like myself joining the industry and inspire students to join.	I have been the Finance officer for 2 months and I would like to continue and develop further into the role.
Mike Kelly	Full	Whilst I have always been aware of the APM and its increasing visibility, it wasn't until I was preparing my full membership application that it became even more clear what the APM stood for and what it was striving to achieve. After I was fortunate enough to be granted Full Membership status it would have been easy to sit back and reap the benefits/rewards that the APM brings, but I still feel the need to understand it in more detail and at the same time contribute to it becoming the Chartered body for the project profession. My colleague has always spoke highly about the APM and in our internal team meetings I have always been interested in the latest updates so I this as the perfect opportunity to get involved and offer my contribution.	Over 30 years experience in the Construction Industry, the last 17 of which has been in a Project Management capacity. For the majority of the previous 12 years I have delivered numerous custodial related construction projects in a collaborative contracting environment, each one with multiple clients/stakeholders and all with challenging programmes/timetables. Delivery of these projects requires not only an in-depth understanding of how each individual prison Establishment operates but also requires the skills to lead multiple teams of external consultants. These elements require a full range of skills/competencies and coupled with my former experience working up through the ranks in the commercial sector means that I feel sure I would be able to apply my experience across most scenarios (including unique/bespoke projects) that the North East branch of the APM would be required to deal with
Hugo Minney	Fellow	Existing committee member	Existing committee member
