

APM People Specific Interest Group committee nomination 2017/18

Name	What is your membership level?	Brief overview of your background and experience as an People professional (maximum 150 words):	What motivated you to put yourself forward for election to the People SIG committee? (maximum 150 words)	What qualities and experience do you think you'll bring to the People SIG committee? (maximum 150 words)	How much time do you anticipate being able to spend on SIG activities in an average week?
Andrew Bell	Fellow	I have run engineering IT projects in the automotive industry as well as in academia. My years in industry and as a project management trainer gives me experience of real people issues in real projects.	I have recently left the Midlands APM Branch committee and also the National BSG committee, and I seek an APM volunteers role at a national level.	I am a Fellow APM member, and hold RPP status. I am organised and thorough, attending 100% of the Midlands Branch and BSG meetings. I am aware of the staff at APM HQ and the workings of the APM at branch and volunteers forums.	I would estimate that the average requirement is 2 hours per week. as I am self-employed/semi-retired I do not see an issue.
Annie Maingard	Full	I have been a project manager for over ten years with experience in several industries. I started in renewable energy development with an environmental background. Taking my environmental background I moved on as the lead PM on a large conservation project funded by the EU with global project partners based as the University of Reading. I have also spent two years in Sydney working on mobile base station deployment, and continued in mobile telecommunications on my return to the UK. For the past year I have been a freelance project manager based in London working for a charity to promote patient record standards in the NHS. I believe the key to project success is within the empowerment of the people in your project team. With that in mind I	I have recently joined the People SIG because I am interested in included people development within project management methodologies. I have always believed that people are the key to project success and have found that when I have looked I haven't been able to find much guidance out there. Therefore the People SIG group is important to continue this and I want to be part of that.	I am a very motivated individual who loves working with people. From my years as I project manager working in several industries (including abroad) I can bring my experience of both the successes and failures of leadership and people management.	I would like to commit to 1 to 2 hours a week an attend the SIG meetings where I can. I intend to build this into my weekly work commitment.

APM People Specific Interest Group committee nomination 2017/18

		have strived to learn and contribute to the tools and skills involved in becoming a successful leader. I have contributed to this by providing mentoring to team members and colleagues who wanted to progress and also seeking a mentor myself. I seek to continue to learn and be involved this.			
Tim Elliott	Fellow	An experienced APM RPP Senior Project Manager & Obsolescence Management Specialist with a proven track record of delivering technical engineering projects as part of major programmes from £1m up to £31bn. Operates across diverse sectors including Defence, Energy, Aerospace and Nuclear, takes ownership for project lifecycle delivery involving product engineering and software technologies, embeds governance, manages key stakeholders and directs cross functional teams to realise process and operational efficiencies. Leads obsolescence management as part of the integrated product/engineering lifecycle, develops through-life management plans and outlines risk & mitigation strategies/frameworks including full supply chain & engineering reviews, to safeguard critical processes and products.	I am a SWWE Branch committee member and volunteer since 2003 and continue to provide the membership an APM project management service through the delivery of relevant CPD events, management of Branch Corporate Group and the transfer of knowledge & experience across all the dimensions of project management. I want to compliment this work by supporting the Peoples SIG especially associated with stakeholder engagement and management.	For over 30 years I have operated in many complex and challenging environments in the successful delivery of projects and gained a vast amount of experience, knowledge and skills within the project management domain. I am a very keen advocate of stakeholder engagement and management and believe this is a subject that isn't comprehensively understood and the influence it has associated with the successful delivery of project & services across the entire project lifecycle. I want to continue to be a member of the SEFG and help educate the APM membership in the importance of stakeholders and their influences to project success through the delivery of best practise, tools and case studies.	I will spend the time required to support all the SIG activities.
Adam Juniper	Full	putting myself up for re-election so same as last year	putting myself up for re-election so same as last year	putting myself up for re-election so same as last year	

APM People Specific Interest Group committee nomination 2017/18

Tim Lyons	Fellow	Project manager since 1975 working in many sectors including PM software development & sales (MicroPlanner), latterly working in rail infrastructure projects. Current role Operations Programme Manager on Crossrail Project.	Current committee member & have significant experience in human aspects and the psychology of PM.	Experience from 40 years of projects, organisational skills, communication expertise (ex-broadcaster)	1 - 2 hrs
Ann Pilkington	Full	Past member of the committee, author of Communicating Projects by Routledge. Have spoken at the APM conference on communication in projects.	To raise the profile and understanding of good communication on projects	Experience in communication practice and knowledge of communication theory.	about an hour a week - more some weeks and less others
Fran Bodley-Scott	Associate	I am a Chartered Marketer, specialising in customer relationship management and stakeholder engagement. I have many years experience in internal and external communications, supporting projects and programmes in a wide range of industries, both private and public sector. Rather than being an expert in any particular field of people management or engagement, my interest lies in improving communication capability and effectiveness by applying and integrating tools and techniques.	Having been co-opted onto the committee for the year 2016/17 as a representative of the SEFG, I would like to continue in that role	Previous experience as a co-opted member of the committee; a member of the SEFG team able to represent the views of the team within the committee, and represent the views of the committee within the SEFG team.	Where SIG activities includes SEFG activities, 4 or 5 hours a week.
David Richardson	Full	I have 25 years experience of working in major projects and programmes in government. I have worked at all levels within project and programme management - reporting role through to programme manager and achieved RPP in 2014. I am currently a self employed ppm consultant and an assessor for the new RPP standard	I have been on the committee for last 3 years	I led a project to assess then build ppm capability of c1200 ppm professional's	I am comfortable I can provide the time the committee require

APM People Specific Interest Group committee nomination 2017/18

Robert Blakemore	Full	<p>In my role providing project assurance and project management to projects within the Home Office, I have a direct interest in furthering the development of the organisation, including its staff. I am a member of the Home Office delivery profession which gives me a view of contemporary project delivery practice in use across Government. As well as being APMP and APMPQ qualified, I am current in most project delivery methods Prince2, MSP and DSDM Atern, and their application.</p>	<p>I am seeking re-election to the People SIG and hope to further contribute as Secretary, and in reviewing and refreshing documentation such as the lens collective. Involvement with the SIG gives me oversight of research outcomes and the application of approaches to the progression of project leadership and teamwork in use elsewhere, which may be directly transferable to my work role. I enjoy working with other SIG members and finding new ways to improve project based teamwork.</p>	<p>I am an experienced project delivery professional who has used, and advised, on the benefits of developing the 'soft' skills necessary to ensure project success. I have extensive experience in the production of project delivery process, procedure and advice. And of applying this advice to ensure that the knowledge and experience of the whole delivery team is effectively used. I am an experienced project delivery mentor and coach, and am currently mentoring 2 members of Home Office staff.</p>	<p>Around 1-2 hours, although this varies as a result of work pressures, and other volunteering demands on my time.</p>

APM People Specific Interest Group committee nomination 2017/18

<p>Oliver Randall</p>	<p>Associate</p>	<p>I have experience of dealing with projects in organisations of up to 9,000 staff. I am AIM (Accelerated Implementation Methodology) certified which is one of the only people-risk focussed methodology in the market place.</p>	<p>I have already been working with the People SIG and would love to continue that work. In addition as much as acknowledge the importance of all areas of project management it is People which interests me the most. I am keen to see methodologies developed, or evaluated, to focus on people associated risks on projects. I feel Prince is great to have a structured assurance framework to the project, whilst Agile methodologies are great at supporting execution of tasks/work packets. I feel there is a real gap for the people management aspect of projects and look forward to looking at that more closely</p>	<p>I am energetic, committed and motivated, I enjoy seeing development. I will bring insight into the latest technology, as I own a web development company.</p>	<p>2 hrs</p>
