Stronger capability. Clearer standards.
Practical support all year.

Business value at a glance

Capability across the delivery lifecycle

Structured development and practical tools that can be applied to live projects

Consistency and assurance

APM-aligned standards and language strengthen governance, handovers and audits, with external validation from the chartered body

Maximises L and D investment

Membership resources cover core development and current practices, freeing budget for specialist training

Plugging skill gaps

Visible career investment, mentoring, and networks that strengthen progression and performance frameworks (e.g. PDP)

Mentoring and peer-learning culture

Peer-to-peer learning spreads good practice and accelerates problem-solving across teams

Unlocking employee value

1 Targeted CPD

Structured self-assessment against the *APM Competence Framework* to focus development where it matters most

2 Industry-leading resources

Research, journals, toolkits, webinars and events ready to apply immediately

3 One-to-one mentoring

Plus professional connections across APM's Community, including Regional and Interest Networks

4 A clear progression pathway

Support towards achieving chartered status

Year-round mentoring for just £163

Access professional mentoring for the cost of membership – that's a fraction of the £100–£500 per hour charged by independent mentors. (Source: unbiased.co.uk)

Watch our mentors in action

Watch now

Before TfL joined APM, we were in pockets. Now we're one project management community – with shared standards, shared goals and the skills to deliver.
