Introduction

The APM Project Management Qualification (APMP) – is aligned with the International Project Management Association (IPMA) at Level D and its syllabus is based on the *APM Body of Knowledge 6th edition*.

APMP seeks to assess the candidate's breadth of knowledge across project management topics. Topics include: context, governance, risk, leadership, quality, life cycle, planning, scheduling, scope, estimating.

There are 2 examination approaches to the APMP qualification:

3 hour paper: select 10 from 16 questions

Or

2 hour paper that recognises prior learning for registered PRINCE2®* Practitioners. Select 6 from 10 questions. Please note that on the date of the scheduled examination, candidates must be a current registered PRINCE2 Practitioner, having successfully completed the examination within the previous 5 years.

Please take the time to read and understand these guidance notes. They outline the examination regulations and will help you apply for and take the examination.

Applying for the examination

Many candidates take the APM Project Management Qualification (APMP) through an APM Accredited Provider who will advise of the date, venue and timing of the examination. Candidates taking the examination through an APM Accredited Provider will not be required to submit an individual application form. APM request that the training provider submits your name and individual email address. Further information required will be requested at a later date.

Some candidates prefer to take their examinations at an open examination centre. Please refer to APM's website for further information on open examinations. APM qualifications department will confirm the date and venue of your examination.

Question formats and key words

Candidates should:

- ◆ start each question on a new sheet of paper
- ◆ write the question number clearly at the top of each page
- ◆ write their candidate number clearly at the top of each page
- ◆ only write on one side of each sheet
- ◆ show formulae and workings clearly
- ◆ put a line through any notes that are not to be marked

Any notes on the examination paper itself will not be marked.

Please note: Candidates may answer from the perspective of the purchaser, supplier, project manager or any other legitimate stakeholder perspective. Other appropriate examples from industry or public projects are equally accepted and are marked according to the mark scheme provided.

Please take note of key words in each question:

List & describe	<p>The typical styles for answering are:</p> <p>A list of requisite items, followed by equivalent number of paragraphs (marking: each correct listed item 2 marks, each corresponding and correct description 8 marks).</p> <p>or</p> <p>A number of paragraphs with embedded headers (marking: each embedded heading 2 marks, with corresponding description 8 marks).</p> <p>Descriptions without headings will score a maximum of 8 marks each.</p>
State:	The typical style for answering this type of question is a coherent statement that answers the question as posed. This may be a phrase or sentence.
Explain:	The typical style for answering this type of question is a number of sentences or paragraphs providing a coherent explanation to the question posed.
Determine:	The typical style for answering this type of question is a numeric value, calculation or formula.

Allocation of Marks

Please note: Questions ask for a specific number of answers, therefore marks can only be allocated to the requisite number in the question. Additional information will not be marked. For example if a question seeks 3 list and describe responses and the candidate lists 5 items, they can only score marks for the first 3. EVEN IF THE SUBSEQUENT ANSWERS ARE CORRECT THEY WILL NOT ATTRACT MARKS.

Diagrams are typically not required/sought and therefore do not attract additional marks. The information within the diagram may be marked as 'list items' if appropriate to the question posed.

Where a number of answers are sought, for example in relation to a process, these can be presented in any order. Marks are neither deducted nor awarded for the order in which items appear.

This should be done either through your organisation, Accredited Provider or directly to APM. A medical certificate signed by a doctor must be provided within 5 working days of the examination date.

Cancellations: If you withdraw from the examination up to 5 working days before the examination (10 working days for overseas examinations), a cancellation fee will apply. Access to the facilities or arrangements described here can be granted to candidates with disabilities/learning difficulties who apply to the APM Qualifications Department. A dispensation may be allowed for candidates with a medical or physical condition that prevents them from completing the examination within the normal regulations.

All requests must be supported by a medical certificate or other relevant medical documentation from your GP or other medical professional. This must be stated at the time of application. All medical evidence must be received by midday, at least, 5 working days before the examination, failure to do so will result in the dispensation not being granted.
