

APM Hong Kong Branch

Supporting statement from nomination process of the elected committee members 2021/2022

Full name	What motivated you to put yourself forward for election to the Branch committee? (maximum 150 words)	What qualities, skills and experience do you think you'll bring to the Branch committee? (maximum 150 words)	If you volunteered last year with the APM what was your best achievement/highlight?
Chi Ming Cheung	Having been participating in various power projects for over 20 years, I have an aspiration of promoting Project Management to young generation. Currently I am a mentor of two young engineers. It is important to provide guidance to our young generation for their development. Being a branch committee member can enable me to extend my aspiration in a broader way. It can help me connect with others, share experience, provide training and promote the importance of Project Management. I can also have the opportunity to get involved in shaping the direction of the local branch. It is a very meaningful task that I would like to do for our Hong Kong community.	My project experiences cover the entire project life cycle, including engineering design, due diligence, construction, project management and governance. Besides, my overseas experience in Vietnam may help to inspire people to look for various development opportunities.	I could be enjoying the success of organizing local events and connecting with people.
Ping Choy	When I was in Aberdeen Scotland, I never missed any APM activities at Aberdeen. I learnt a lot on practical project management experience from the activities. I did volunteer at Frisco project though University (RGU) . I do think it is a good idea for myself continue volunteering for the community . Project management is a new area on my career path. I expect I could continue learn and add value with Hong Kong Branch. Hoping I could help in any area within the branch going forward.	I am an experienced financial controller in international banking industry. I can assist on the area related to financial areas. It's a good opportunity for me to share my skills and experience in financial planning and projects in banking industry with the team.

S S Wong	<p>Over the last few years, I provided support and oversight for the major projects in CLP Group. I worked closely with the Director – New Build & Technology/Group Operations of CLP Holdings on developing the CLP Group Project Management Governance System and the Project Management Academy. The CLP Group Project Management Governance System Standard was issued in 2015 for the Group to follow. I conducted total more than 40 sessions of training in Hong Kong, India, Australia and China for more than 800 colleagues to let them to understand the requirements of the CLP Group Project Management Governance System Standard. My experience in the last few years let me understand project management really is a professional. I would like to take part in the Branch committee of APM in order to help to establish project management as the recognised profession essential for managing beneficial change in every type of business.</p>	<p>I have experience of conducting training about project management governance and basic project management principle. Which should be useful for the promote of project management in the industry sectors as well as the University and Education Institutions in Hong Kong.</p>	
Josephine Wong	<p>Support and share Project Management knowledge and skill to the community</p>	<p>PM skills and experience and connectivity with the construction industry in Hong Kong</p>

<p>Tak Yun Joe Wong</p>	<p>Self-motivation is the main driving force of my election after serving the Branch branch for nearly twenty years. I am firmly committed to contributing as much as I can to the committee. With the help of the existing committee, I have found I become more interested in the committee activities, hence highly motivated than before the pandemic situation.</p>	<p>I have 52 years of working experience in Hong Kong. The management consultancy works in the HKSARG for nearly 30 years and project management works in the building contractor firm for seven years have equipped me with adequate project management skills and techniques. The nine years research in my MPhil and PhD studies in HKPolyU and the current part-time teaching in Hong Kong Construction Industry Council (CIC) provide me with due skills in teaching and training for the young project managers.</p>	<p>I have arranged briefings on membership / recruitment matters with University College of Estate Management in the UK and CIC in Hong Kong. My contribution is limited, I must admit and hope to improve it in the future.</p>
