List of projects, programmes and portfolios

This list is mandatory for IPMA Levels A, B and C applicants both for certification and recertification purposes.

You should detail your participation in projects, programmes or portfolios by decreasing the chronological order of conclusion dates.

Since this list is a key element of decision to accept a new application, even if you include a project, programme or portfolio in your Executive Summary Report, you should include it in this list to assess the eligibility criteria (*ICR4 8.3.3*).

Important: Applicants shall verify if they are conforming to the minimum requirements for the level they are applying, as defined in IPMA Certification Regulations.

For each project, programme or portfolio, you should duplicate the corresponding description table as needed and fill in the tables according to the page instructions.
